

Driller

Job Title	Driller
Reports To	Principal Team
Date Created/Reviewed	17/01/2023
Annual Salary	£25,000 (minimum 45 hours a week)
Location	Site work in London and South-East area
Employment Type	Permanent, Full Time

Do you love the outdoors and want a physical job that satisfies this passion? We are looking for an enthusiastic, cheerful, trustworthy, and reliable driller to join our team. You must have high standards and show an eagerness to learn.

Our Company

Established in 2009, we are highly skilled, independent, specialist geotechnical engineers, geo-environmental consultants, and site investigation contractors. Our engineers have the experience and resources necessary to manage geo-environmental projects from conception through to completion and provide geotechnical analysis and design services for all ground engineering problems.

We are a small, professional, and friendly team, who strive to give everyone the opportunity to realise their full potential.

Working For Us

Everyone within Ground and Water is a part of our success. We believe in creating an organisation we all want to be part of, based on a positive, supportive, and fun environment where people are given the opportunity to grow and advance their career.

The Role

- Monday – Friday
- £25,000 per annum
- Minimum 45 hours a week with the opportunity for overtime
- Generous staff benefits
- Regular social events
- Full training provided with opportunity for extra responsibilities.

This is a varied role where you will be responsible for drilling and technical works across London and the Southeast region. You will be obtaining/collecting samples, logging soils, maintaining vehicles, plant, and equipment and much more!

Full training will be provided, including the opportunity to obtain industry recognised qualifications.

The role is physically demanding and involves mostly site-based work (all year round). This will include the setting up of site equipment: including our drill rig, on-site logging of soil samples to BS5930/Eurocode 7, ground-gas and groundwater monitoring, sample collections and any site related visits/works.

You will also be required to travel regularly to our head office is based in Alton, Hampshire to collect, return and maintain samples and equipment. For insurances purposes, you will need to be 25 years old + and hold a UK driving licence. The role will involve driving equipment to site, including towing a trailer.

What we're looking for:

- Reliable and committed team player.
- Flexible, proactive, and self-motivated with the ability to be self-directed when needed.
- Doesn't mind working outside in all weathers.
- Full clean UK driving licence.
- Eligible to work and live within the UK.
- Personable, with experience liaising with clients and other stakeholders.
- Ability to maintain the physical nature of the role.
- A positive problem-solver.
- Accurate with an attention to detail and follow-through.
- Out-going, personable and enthusiastic manner.
- Thorough planning, organisation and prioritising time.
- Ability to work calmly in a busy work environment.
- A strong work ethic is essential.
- Adaptable and capable of managing own workload.
- Able to work to timescales.

Additional requirements (desirable):

- Educated to GSCE level.
- Previous experience within the construction industry.
- Familiar with geotechnical/geo-environmental aspects of site investigation.
- Basic knowledge of Microsoft Office Suite.

If this role sounds of interest, please don't hesitate in getting in touch. Please contact Penny Hignett on penny.hignett@groundandwater.co.uk.
